Education

2023.09-2027.06	China Foreign Affairs University	B.A. in International Affairs and International Relations
	- GPA: 3.83/4.0 - Core Courses: Research Methodology and Research Design, Fundamentals of Python Programming, Economic Research Methods and Academic Writing, International Political Economy, Environmental and Energy Diplomacy - Honors & Awards: Outstanding Student Scholarship (2023), “Senior Diplomats” Scholarship (2024)	

Research Experience

2026.03-present	Power Politics and Normative Dynamics in China's Territorial Disputes	Research Assistant
	- Compiled and maintained a longitudinal database of China's diplomatic activities by aggregating multi-country news from Chinese embassies and consulates. - Developed an NLP pipeline using rule-based extraction and BERT-based classification to identify diplomatic actors, institutions, visit directions, event types, and thematic areas from unstructured Chinese texts. - Implemented entity normalization, error detection, and quality control procedures to support manual annotation and model training iteration.	
2026.05-present	AI-Generated News and Social Media Trust: An Agent-Based Simulation	Researcher
	- Built a large-scale simulation ecosystem with over 1,000 heterogeneous agents within the OASIS framework, incorporating real news datasets and user profiles to model information diffusion and agent behavioral traits (e.g., authority-trusting, fact-checking, rumor-spreading, AI-skeptical). - Designed multi-condition experiments using a hybrid rule-based and LLM-driven architecture to capture agent reasoning on trust and behavior. - Analyzed trust evolution across time steps using Python, Pandas, and SQLite, examining how AI labels, corrective information, and user types influence trust decline and recovery. - Produced agent behavioral logs and structured reflection data for qualitative analysis of trust attribution and decision-making patterns.	

Professional Experience

2026.06-2026.09	Institute of Social Science Survey, Peking University	CFPS Data Verification Intern
	- Verified CFPS 2026 survey data through real-time logical validation, mapped questionnaire skip patterns into visual flowcharts and built automated checking tools using SAS to flag missing values, outliers, and consistency errors. - Categorized and summarized data quality issues, analyzed potential sources of error, and delivered timely feedback to support fieldwork execution and data correction.	
2026.01-2026.04	Beijing SynTao Consulting Co., Ltd.	ESG Consulting Intern
	- Conducted ESG-related research through surveys, expert interviews, and desk research to collect information on corporate governance structures, sustainability practices, and case studies. - Supported ESG strategic planning and benchmarking analysis by identifying improvement pathways based on clients' ESG performance.	
2025.07-2025.12	Innovation Center for Energy and Transportation (iCET)	Research Intern
	Monitored weekly developments in clean transportation sector around the world and produced bilingual industry briefing reports in English and Chinese.	
2025.01-2025.03	International Communication Center of China Foreign Languages	New Media Intern
	Collected, translated, and curated China-related news content into English-language social media posts and short-form videos for international platforms including YouTube, Facebook, and Twitter.	

Leadership Experience

2025.03-2025.05	Youth Diplomatic Negotiation Network Platform	Project Leader
	Led the development of an educational online platform aimed at expanding access to Model Diplomacy competitions among university students.	
2023.09-2024.06	Model CPPCC Association	Member, Academic Department
	Contributed to proposal writing for the National Model CPPCC Competition based on current affairs and public policy topics.	

Additional Skills

- Programming & Data Analysis: Python, R, SAS, Excel, Power BI, Data Visualization, Machine Learning Fundamentals
- Software & Digital Media: Adobe Photoshop, Premiere Pro, Microsoft Office Suite
- Languages: Mandarin Chinese (Native), English (Fluent, IELTS 7.0), Spanish (Intermediate)
